

# DRAKE & MORGAN

At Drake & Morgan the health & wellbeing of both our customers & teams are paramount. As we reopen our bars & restaurants, we wanted to communicate the new procedures we have in place to keep you all safe.

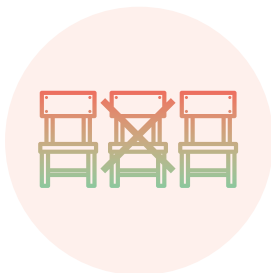

Daily **wellness checks** for all employees before coming to work.

Employees split into "**bubbles**" to limit contact where possible.

**Varied shift patterns** for our teams to avoid rush hour travel and allow space in our changing rooms & on breaks.

Our venues have had their layouts amended with **furniture, booking times & capacities reduced** to encourage distancing between customers.

Our range of **menus** has been **reduced** to allow for more space in our kitchens & behind the bar to allow us to operate with fewer team members at any one time.

All our venues have undertaken **in-depth risk assessments** and will be certified compliant by a retained external audit company.

We have **enhanced cleaning regimes** for all contact surfaces especially doors, banisters & toilets.

We have a new **contact free order, pay & pick up app** where menus can be viewed electronically and we will be cashless across the bars.

Customers will be encouraged to **book at all times** where possible and not to visit if they are feeling unwell.
